

# Vaishali

## FRONTEND DEVELOPER

### ABOUT ME

I am a frontend developer with over three years of React and Next.js experience, building easy-to-use UIs, writing clean code, and working well with designers and backend developers.

### PROJECTS

#### ➤ Travel Advisor

[github.com/vaishali2127/travel\\_advisor](https://github.com/vaishali2127/travel_advisor)

Developed Travel Advisor, a React-based platform for finding top hotels, restaurants, and attractions by integrating RapidAPI and Google Maps for accurate location data.

#### ➤ Cryptoverse

[github.com/vaishali2127/cryptoverse](https://github.com/vaishali2127/cryptoverse)

Built a cryptocurrency statistics platform with React JavaScript and Redux, using RapidAPI for up-to-date data and featuring market cap monitoring, interactive timelines, and news aggregation.

### SKILLS

- ✓ Frontend – Javascript, ReactJS, HTML, CSS, NextJS, TailwindCSS, Shadcn UI
- ✓ Tools – VScode, Git, CMS(wordpress)

### EDUCATION

🎓 Bachelors of Technology (Computer Science)

DR. A.P.J. ABDUL KALAM TECHNICAL UNIVERSITY 2017 – 2021

### WORK EXPERIENCE

#### leo.digital

##### WEB DEVELOPER

Dec 2023 – Present

- Managed development and maintenance of 15+ client websites — including *Times of India*, *Sharp*, *Stag*, and *Fujifilm* — meeting brand and performance targets
- Crafted dynamic, responsive UIs with **ReactJS** and **TailwindCSS** for scalable, maintainable codebases
- Optimized** CMS-driven workflows to speed up content delivery and streamline updates, boosting user experience and reliability
- Collaborated in **Agile sprints** with designers and engineers to deliver polished digital products on time
- Tech Stack:** ReactJS, TailwindCSS, shadcn UI, Zustand

#### Informics

##### WEB APPLICATIONS DEVELOPER

Sept 2022 – June 2023

- Built **mangoHR**, an internal HR system, using **ReactJS** and **styled-components**. Delivered the full application in one month.
- Fixed important bugs in older systems so they ran more reliably and did not crash.
- Added new features and fixed problems in a healthcare app using **ReactJS** and **TailwindCSS**. These changes made users happier and helped the app work smoothly.
- Combined styled-components with **Material-UI** to give the app a fresh and consistent look across all pages.
- Cleaned up and reorganized code to make pages load **55% faster** and run more smoothly.
- Tech Stack:** ReactJS, styled-components, Material-UI, TailwindCSS

#### Excsaas

##### FRONTEND DEVELOPER

July 2021 – Sept 2022

- Built the **Footox** frontend with **ReactJS**, **NextJS**, and **TailwindCSS**, delivering a responsive and user-friendly interface
- Transformed legacy static sites into ReactJS apps, improving scalability and load speed
- Enhanced the **learnupdated** blog using ReactJS and **Redux**, simplifying data flow and content updates
- Improved UI/UX to boost performance by **42%**, cut page-load times by **34%**, and generate **2.7x** more qualified leads
- Tech Stack:** ReactJS, NextJS, TailwindCSS

#### Vidtorrium

##### FRONTEND DEVELOPER INTERN

May 2021 – July 2021

- Built **unlock.fit** for *Tata Communications* using **React**, **NextJS**, and **Styled Components**, delivering responsive registration, inquiry, and purchase flows
- Developed form validation and API integration to ensure smooth user interactions
- Revamped the **ADAMS GENETICS** site with **React**, **NextJS**, and an integrated payment gateway, improving UX and simplifying transactions
- Integrated and tested the payment gateway end-to-end for a seamless checkout process
- Collaborated with design and backend teams to align features with business needs and boost user satisfaction
- Documented code and setup steps to support future maintenance and onboarding
- Tech Stack:** ReactJS, NextJS, styled-components
